

ELECTRICAL SUSPENSION SYSTEM (MDPS SYSTEM)

Non contractual photo

SERVICE :

REFERENCE : Y4957

- Operation principle and function training equipment of speed sensitive electric steering (MDPS).
- It is a system to experience and diagnose the operation of electric steering with vehicle speed and RPM control

Technical specifications :

- Composition
 1. Single phase 220 Power Supply / DC12V drive
 2. Manufacturing microcosm of STEERING HANDLE, OPERATION MOTOR,
 3. INSTRUMENT PANEL, MDPS variable units and etc.
 4. Mask Cylinder, Oil tank, Hydrovac, spring
 5. CNC Engraving in the front panel aluminum
- Size : Approx. 1,200 X 2,000 X 1,400 mm
- Weight : Approx. 200 kg
