

## PNEUMATIC GRASSHOPPER

**REFERENCE : EX2255**

*Non contractual photo*

**SERVICE :**

**DIMENSIONS : 440 X 320 X 95 MM**

**WEIGHT : 2 KG**

The pneumatic grasshopper is used, for example, for clamping parts during machining operations on machine tools and for assembling mechanical parts by gluing. The proposed model is very simple in design.

### Technical specifications :

#### Proposed TP Themes :

- Elaboration for a piece of a computer building tree generating a 3D model
- Kinematic diagram

#### Composition :

- Pneumatic grasshopper
- CD Rom with educational and technical resources (3D - SC, 2D DMT), Mécaplan files
