

V-BRAKE BICYCLE BRAKE

Non contractual photo

SERVICE :

DIMENSIONS : 700 MM

WEIGHT : 2 KG

REFERENCE : EX2050

The brake caliper V-Brake is placed on a fork equipped with a cable and a handle for the scenario. the student describes a constructive solution from the real product and its volume representation, he applies the fundamental principle of the static.

Educational Objectives :

- Identification of constructive solutions from the product and its volume representation.
- 3D modeling of a part of the mechanism.

Technical specifications :

- V-Brake bicycle brake caliper mounted on a front fork equipped with a cable and a handle,
- CD Rom with educational and technical resources (3D - SW).
